- **Dr. F.M. Sabir**
 - Explained the **4% sales tax** applied to unregistered persons, citing court precedents (e.g., ice factory case) where exempt suppliers successfully challenged the tax.
 - Encouraged members to **seek legal relief** when needed.
 - Clarified that the Association is actively pursuing the FED case and will approach courts and the Prime Minister's Office.
 - Emphasized that **4% tax is more** a penalty than a regular tax.
- **Key Clarifications on FED & Sales Tax**
 - Confusion exists over whether FED applies to producers or buyers.
 - Dr. Sabir clarified that sales tax is collected by the seller, but in practice costs shift across the chain.
 - FED complicates cash transactions; proper documentation is necessary.
 - Payments made through banks will attract FED.
 - Small farmers (especially in Sindh) are mostly unregistered and vulnerable to tax complications.
- **Concerns by Members**
 - Members noted farmers' hesitation to enter formal taxation.
 - Past claims may be difficult to pursue; future claims need informed action.
 - FED implementation has recently begun, requiring close monitoring.
